

Danger - Confined Spaces - Danger

LANL has 2,000
identified confined spaces

Confined spaces:

are large enough for a person to enter
and perform work

have restricted entrances or exits
are not designed for continuous
occupancy

Invisible hazards may
be present in
confined spaces

Don't go into a confined space unprepared!

DON'T Become a VICTIM!

Call 911 if you see a confined space worker in trouble
